## BIO

Self-taught visual artist, my main area of interest lies in Illustration and folk art. Proficient in acrylics and aerosol work, where I've gained a following with my graffiti & street art under the name of Abyss 607 with murals and pieces.

With my line work Illustration and Ink works I like to draw creatures, entities and other figures representing the psyche and unconscious primal imagery

I'm greatly inspired by ancient art, from petroglyphs to divinely beings, through my own art I try and retain that nostalgic aesthetic and awe.
